Financial Officer

Finance professional with 3 years managing operations, payroll, travel, collections and revenue management, and contracting services in high-stakes environments while maintaining federal-compliance standards. Proven track record managing \$500,000 in physical assets and managing \$10M in annual transactions with 98% accuracy.

Experience and Accomplishments

US Army, Fort Bragg, NC - Operations Manager

JUL2024-Present

Managed a team of 25 personnel in staff development and execution of payroll, contracting, and collections services. Organized and managed development for a department of 70 personnel. Responsible for the creation and approval of Standard Operating Procedures to ensure institutional and federal compliance.

- Ensured over \$10M in annual payroll and contracting transactions processed while maintaining rigorous internal controls to ensure near-total accuracy.
- Engineered a workforce development strategy with a focus on risk management and compliance for 70 personnel, leading to a 100% certification with internal controls in accordance with federal compliance standards within 4 months at a 20% improvement.
- Maintained control and accountability of personnel supporting projects for companies outside of our immediate organization by providing monthly performance reviews and yearly evaluations.

US Army, Sharm El-Sheikh, Egypt - Treasury Manager

JUL2023-JUL2024

Maintained a physical vault of \$500,000 and 2,000 negotiable instruments with a team of 4 for collections support of 1200 personnel. Directly supported 300 individuals in payroll and travel.

- 100% compliance with federal standards achieved while sustaining no loss of funds.
- Spearheaded the implementation of a new travel payment portal which improved travel processing times by over 90%.
- Established relationship with UMGC Maryland to provide Education Center resources to 1,200 personnel including testing, Tuition Assistance, and education.
- Improved daily workflow of the team by 10% using Power Automate to improve fileshare between US and multinational IT systems.
